

Department of Earth & Climate Sciences
Distinguished Speaker Series

Faculty Lightning Talks

Zan Stine — Mary Leech

Tuesday, March 4th

Zan Stine's research uses tree-rings to reconstruct the climate history of California

Thornton Hall
Room 604
1-2 pm

Join us for
Lunch & GeoClub*
12:30-1:00

Mary Leech's research uses rocks from the deep cores of mountain belts to understand the tectonics of continent-continent collisions

*All undergraduate & graduate students interested in earth or climate science are welcome to attend the GeoClub meeting and join!
