

San Francisco State University  
Department of Earth & Climate Sciences

Name \_\_\_\_\_  
Fall 2017

ERTH 465  
Homework 7

Due Tuesday 10 October

Please answer on back or on separate sheets, in complete sentences where appropriate. DO NOT JAM ANSWERS BETWEEN EQUATIONS, if equations are used. (100 pts)

Your task is to present to the class an overview of the climatology (normal, means, extremes) for October for the forecast station assigned. You should also describe location information, as provided on the summary sheet at the head of each pdf.

Your presentation should be about 5 minutes.

Jonathan – Newark

Natalie – Great Falls

Drew – Portland

Juliana – New Orleans

Tianny – San Francisco
